Full integration of a phyto-chain

- ▶ Traceability
- ▶ Quality & Identification of botanicals
- ▶ Securing supply
- ▶ Short Supply Chain

Full traceability

An European initiative

2009 : the **EFSA** published a guidance for manufacturers in food industry in order to help them to assess security of botanicals for use in food supplements.

Objective : to ensure safety of plants in food supplements

2015 : creation of Esfri® group
Three partners pooled their expertise
